OBJECTIVE

To contribute to the development of scalable and reliable software solutions by applying strong problem-solving skills, hands-on experience with modern technologies, and a continuous learning mindset. Looking forward to opportunities that provide a challenging and collaborative environment to apply my skills, take on meaningful technical challenges, and contribute to impactful projects while continuously expanding my expertise and building a successful career in the software industry.

EDUCATION

B.Tech in Computer Science and Engineering, Medi-Caps University 2022 - 2026
Higher Secondary Education, Himalaya International School 2021 - 2022

TECHNICAL SKILLS

Languages:	C++, JavaScript
Frontend:	React.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, REST APIs
Databases:	SQL
Cloud & Deployments:	AWS (EC2, S3), Gearset, Vercel
Tools:	Git, GitHub, Jira, Bitbucket, Figma, Vercel V0, Claude, Antigravity
CRM:	Salesforce (Sales Cloud)

EXPERIENCE

Software Development Engineer Jan 2026 - Present
American Chase LLP *Indore, MP*

- Contributed to application development and defect resolution, collaborating with developers and QA teams on feature implementation, testing, code changes, and delivery activities within an enterprise project.
- Took on additional deployment and production support responsibilities under the guidance of the team lead, gaining hands-on exposure to software delivery and DevOps practices alongside development work.
- Worked with Git, Bitbucket, Jira, and Gearset to support version control, branching and pull-request workflows, release activities, deployments, hotfixes, and synchronization of code changes across the delivery lifecycle.

Web Development Intern June 2025 - July 2025
Django Softwares Pvt. Ltd *Bangalore, KA*

- Developed AI-powered full-stack applications using Next.js, React.js, Node.js, MongoDB, and React Native.
- Built REST APIs, integrated databases, and optimized application performance with scalable architectures.
- Contributed to a vacation rental platform that connects property owners with travelers.

PROJECTS

Resumind - AI Resume Analyzer [Click here](#)

- Developed a serverless, AI-powered resume optimization platform that analyzes resume-to-job-posting matches and provides ATS scores, keyword analysis, and targeted improvement suggestions using Claude Sonnet-4 and other AI models.
- Leveraged Puter.js for authentication, secure file storage, AI processing, and database management, eliminating the need for a dedicated backend while integrating React.js, TypeScript, and Tailwind CSS v4 for a responsive and type-safe UI.
- Implemented React Router v7 and Zustand for seamless navigation and efficient global state management, delivering a robust and user-friendly experience for resume analysis and optimization.

EXTRA-CURRICULAR ACTIVITIES

- Completed HCL Tech's 240-hour Full Stack Developer with AI program, building practical full-stack and AI development skills.
- Completed NPTEL certification on Programming with Gen AI, secured 4th place at Hackmivo Hackathon, and earned 2 LeetCode badges for demonstrating strong problem-solving and DSA skills.
